### Interest

Interest begins to accrue no later than the business day that the Bank receives the deposit of noncash items, such as checks.

The interest rate and Annual Percentage Yield (APY) are administered by the Bank and may change daily at the discretion of the Bank, unless stated otherwise. View our competitive interest rates at [Rate Details](#).

#### Compounding

**CDs: Quarterly**

**IRA CDs: Daily**

#### Payout

**CDs: Quarterly and at maturity**

**IRA CDs: Monthly and at maturity**

#### Interest payments

Interest is credited to your CD, unless you advise us that you would prefer one of the following payout options:

- You may have the interest paid to you via check.
- You may have the interest credited to your Bank of Texas checking, savings or money market account.

Any APY quoted for your CD assumes compounded interest remains on deposit until maturity, and a withdrawal of interest prior to maturity will reduce your earnings.
